INCREASE OF POLICE FORCE.

The ordinance from the Finance Committee increasing the police force by the election of ten additional patrolmen and the purchase and maintenance of one pairol wagon, came up, was advocated in a stirring speech by Mr. Eliett, who pointed out the necessity for the increase, and decirred that the board were doing all in their power to bring the force up to a high standard. He thought that later on there could be some mounted men, and said the board would util ze bicycles taken from prisoners, etc., for this purpose without cost to the city.

With Mr. Tucker and Church.

Unless the urgent counsels of his fellow-ministers prevail, the Rev. Joel T.
Tucker will on Sunday next tender his resignation as pastor of the East End Baptist Church of this city.

Mr. Tucker feels that his work in his present field has been accomplished. This with other considerations led him to decide to resign the charge. The Baptist ministers of Richmond, however, take a different view of the matter, and are decidedly not willing to let Mr. Tucker feel they can prevent it. They say he has done a great work, and that the city cannot afford to lose his services. At the meeting of the ministers yesterday morning the matter was discussed and a committee was appointed to confer with Mr. Tucker and with his church. The committee is composed of the Revs. W. R. L. FOUND NO VIOLATIONS.

"Upon an inspection made since the report of your resolutions, we found no violations of the law under either of the ordinances at the Academy of Music or Bijou Theatre, with the single exception that at the Bijou the standpipe was not up to the proper requirements, and in this connection we desire to say that a contract has been awarded for the proper erection of this standpipe, and the same is now being placed in proper position in the rear of the stage.

"At the Theatre Comique (Putnam's), upon inspection we found that there was only one door to the street direct, and one leading through the bar-room to the street; there should be other means of egress to this house. We also noted a number of other improvements and alterations which should be made at once. But the ordinances do not place all of these things under our control.
